MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: [REDACTED]
Director, Intelligence Community Staff

25X1

SUBJECT: Proposed Commerce-Intelligence Community
Automated Data Base [REDACTED]

25X1

I am pleased to report that the GDIP Program Manager will make available the [REDACTED] to round out required funding for the Commerce Department's proposed data base on Soviet inventions. General Williams shares the view of Bob Gates, and others, that such a data base could be a useful tool in working the technology transfer problem. Arrangements are now being made to transfer these GDIP funds to Commerce.
